House And Senate Are In Battle Over Global Aid Fund

Senator Vandenberg To Seek To Have Foreign Aid Fund Cut Restored

TABER SAYS EUROPE FOOD OUTLOOK BETTER

By FRANK E. ALLEN
(I. N. S. Staff Correspondent)

WASHINGTON, June 8.—The global aid funds fight settled down today to a House-Senate battle.

Sen. Vandenberg (R) Mich., GOP international affairs spokesman, prepared to spearhead a bipartisan drive tomorrow to restore for policy reasons, at least, the two billions the House knocked out of the program.

At the same time House Appropriations Chairman Taber (R) N. Y., announced he would ignore the Vandenberg plea and make a fight in conference to sustain the two billion dollar cut made by the House.

Improvement in Europe
Taber declared that if the Senate appropriations committee gets up-to-date information on the improvement in Europe's food outlook it will concur in the House action.

Vandenberg picked up some Senate GOP support, and it remained uncertain how strong a fight critics of the administration's foreign aid programs will make.

GOP policy chairman Taft (R) Ohio, who last winter sought to trim the authorization, declined to reveal his plans.

Taft and Vandenberg found themselves in anomalous positions. In the authorization debate, Vandenberg, arguing for the full amount, emphasized that the appropriations committees would adjust the actual sums granted according to the developing needs.

On the other hand, Taft, contending for a reduced authorization, argued on the floor that the authorized amount would become a "moral commitment" for which Congress would be obliged to make full appropriation.

Entitled To Survey
Acting Majority Leader Wherry (R) Neb., who also had fought for a smaller authorization, likewise withheld a new punch at the program. He said only:

"I believe the appropriations committee is entitled to survey the (Continued on Page Two)

Pa Newc Observes

Well drillers are at work on a North Highland avenue property. Well drilling in the city is rather unusual.

Pa Newc got a \$2 bill in change the other day. It was the first he had seen in years.

It was reported this morning that twin calves were born this week, on the Doughty farm (old Armstrong farm) at Plain Grove.

Large numbers of newly excavated cellars are appearing around the city and county, indicating that the building of homes is getting another impetus.

Rains of the past day or so have brought the corn out of the ground, many fields showing the effects of the watering received.

Pa Newc saw a young man seated on the curb awaiting a bus, with a portable radio in operation on his knees, listening to a ball game, while he waited.

Arden Bement, 226 Euclid avenue, reported to Pa Newc that a red-eyed Vireo fell near his place of work on Sheridan avenue over the week-end, apparently the bird seemed stunned.

Mrs. Harry G. Neff, who was nearby at the time, fed the bird and later it recovered enough to continue on its journey.

Pa Newc finds that workmen who are installing the new white lighting system in the downtown section have already placed some of the metal fixtures for the new lights which will be turned on (Continued on Page Two)

Tavern Keeper Is Asking More Time In \$10,000 Marriage

Woman Who Advised For Husband And \$10,000 Meets Prospective Mate

DAYTONA BEACH, Fla., June 8.—(INS)—A 33-year-old Daytona Beach tavern keeper wants "more time" before he gives up \$10,000 for an attractive Hempstead, L. I., hat check girl and takes her for his wife.

The prospective husband, Danny Wicker, and 28-year-old Mrs. Dorothy Laylor got together yesterday at Daytona Beach to "get acquainted."

Wicker and Mrs. Lawlor, who advertised she would marry for \$10,000, plan to leave today on the tavern keeper's yacht for a four-day cruise.

After visiting Marineland, a fish exhibit north of Daytona Beach, Jacksonville, Tampa and Miami they will announce whether they will marry.

Mrs. Lawlor arrived by plane yesterday from Long Island and the couple promptly went into a clinch. Wicker first hugged his prospective bride and then kissed her.

Mrs. Lawlor said that all future plans were "up to Danny". But Wicker wasn't to be rushed. He answered:

"Give us more time."

NEW WILMINGTON, June 8.—"Men must learn to live together as brothers or they will kill each other," Dr. Withrow Scott, pastor of the Oak Hill U. P. church at Akron, told the 171 members of the 1948 graduating class at Westminster College, at commencement exercises in the U. P. church, Monday afternoon.

In a clement weather forced the service indoors. "Taking for his subject, "Education in the Atomic Age," Dr. Scott admonished the graduates to live their lives not for their own pleasure but for the glorification of God. The Hickory fire company was called out yesterday afternoon when it was noted that extraordinary heat and smoke were issuing from the ground near the brick kilns. Com-

New Palestine Truce Complications Seen

By PIERRE J. HUSS
(I. N. S. Staff Correspondent)

LAKE SUCCESS, N. Y., June 8. Russian demands for a share in the enforcement of a Palestine truce threatened United Nations cease-fire plans with fresh complications today.

The security council, which heard Soviet delegate Andrei Gromyko make the demand yesterday, put off consideration of the question until Thursday. By that time it is expected that U. N. Mediator

Count Bernadotte of Sweden will have reported on whether a cease-fire will actually take place.

But the U. S. and Britain made it clear that they view Russia's offer to send Red army officers to Palestine with disfavor. They took the position that only nations attached to the truce commission—the U. S. France, and Belgium—should be expected to send military observers.

Gromyko, in presenting Russia's (Continued on Page Two)

Truce Proposals Being Discussed By Arab League

CAIRO, June 8.—(INS)—Arab league leaders met today for further discussion of Holy Land truce proposals presented by United Nations mediator Count Folke Bernadotte.

It is expected that a final decision by the Arabs on the suggested four-week truce will be arrived at during the day.

After announcement was made that the Arab league principals are conferring today, Egyptian Premier Mahmoud Nokrashy Pasha said that the Arab reply will be handed to Count Bernadotte on Wednesday morning.

The U. N. mediator said after disclosing that he had presented a "straightforward" plan to both the provisional government of Israel and the Arab leaders yesterday that he expected definite answers within 48 hours.

While decisions were awaited on the latest peace proposals, fighting continued unchecked in the main battle sectors north and south of Tel Aviv.

Five Injured In Train Crash At Columbus, Ohio

COLUMBUS, O., June 8.—(INS)—Charles W. Donker of Baltimore, Md., and E. D. Johnson of Jennings, Mo., were in critical condition today as the result of a train crash last night in the Columbus union terminal which injured five.

Officials immediately launched an investigation to determine how the last two cars of the Pennsylvania railroad's The Spirit of St. Louis, cut loose, jumped the track and rammed the locomotive of another passenger train on the same line standing in the yards.

Johnson, a mechanical engineer, suffered fractures of both legs and a severe laceration of the abdomen. Donker received a crushed pelvis.

Others injured were Harry G. Fitzgerald of Blacklick, O., an assistant Ohio attorney general; John Avery of Connersville, Ind., and Hart W. Reeves, Los Angeles. All were in fairly good condition.

Twenty-eight deaths have been attributed to the flood, which has caused losses of more than 100 million dollars. An estimated 60,000 people are homeless.

Two more weeks of struggle against the raging stream were forecast by Col. O. E. Walsh, Portland district army engineer, who said:

"We have a long, steady fight of two more weeks—or longer—to hold the dikes, but we have hoped that they will be held. The water will be high for at least three more weeks."

The third crest was predicted by Elmer Fisher, river forecaster for the weather bureau. Warm weather, melting snow rapidly in the mountains will be responsible, he said.

Coal Operators Ask New Delay To Frame Offer

Negotiations Are Expected
To Be Resumed At 2 P. M.
On Wednesday

WELFARE FUND STUMBLING BLOCK

By PHILLIPS J. PECK
(I. N. S. Staff Correspondent)

WASHINGTON, June 8.—Resumption of soft coal wage negotiations were postponed today at the request of bituminous mine owners who are considering making an "offer" to John L. Lewis on a new 1948 contract.

The court-ordered bargaining discussions were scheduled to resume at 2 o'clock this afternoon but were deferred another 24 hours while the management negotiators caucused privately on the issue of submitting a proposal to Lewis.

Operators had little hope, however, that any proposal they might make would find favor with the union. Lewis demanded certain welfare fund guarantees "as a condition precedent to a new contract."

The mine owners have stated they do not intend to grant these guarantees.

Key issue in the contract dispute is the 1947 UMW welfare and pension fund now totaling 39 million dollars and financed by a ten cents a ton royalty on coal.

Demands By Lewis
Lewis wants pension and welfare payments started from this fund. He also demands that the 1947 fund take over 30 million dollars worth of obligations incurred under a 1946 fund that will be exhausted July 1.

The operators flatly refused to agree to the latter demand. They point out that the 1946 fund was set up under government operation of the mine and the industry has had no part in its operation.

Activation of the 1947 fund may (Continued on Page Two)

Southern Democrats Not To Stage Filibuster Despite Anti-Poll Tax Amend- ment

WASHINGTON, June 8.—(INS)—Southern Democrats indicated today they would not attempt to kill the draft bill by filibuster because of the surprise addition to the measure of an anti-poll tax amendment.

Order Probe In Philadelphia

(BULLETIN)

PHILADELPHIA, June 8.—(INS)—A sweeping grand jury probe was ordered today into two Philadelphia municipal departments allegedly involved in a two million dollar tax scandal.

The heads of the departments had requested the probe yesterday through Attorney William A. Gray.

Would Abolish W.A.A. August 31

WASHINGTON, June 8.—(INS)—The house appropriations committee voted today to abolish the war assets administration on Aug. 31 and to turn the disposal of more than four billion dollars worth surplus property over to other government agencies.

The action, which is subject to approval by congress, was taken in supplemental independent office appropriations bill for the 1949 fiscal year beginning July 1.

If I were making the weather and decided on sunshine and rain, I expect that most folks would agree—I was wrong, and suggest I was loose in the brain. But if I made the weather each morning, I'd consider the fields and the seed, and I reckon we'd get just about what we do, for we get just about what we need. No use to complain when it's raining, the farmer is chuckling with gloe, and you'll find that the weather most times is just right, the weather is seventy three.

Strikes Tie Up Two Bus Lines

PITTSBURGH, June 8.—(INS)—Strikes continued to paralyze two commuter bus lines today in western Pennsylvania, and employees of a third firm averted a strike by accepting an 11-cent-an-hour wage increase.

Nearly 30,000 daily riders in the Sewickley-Beaver valley-Steuensville area were depending on emergency transportation because of the strikes of employees of the Beaver Valley Motor Coach Co. and more than 300 drivers and mechanics of the two firms walked out yesterday in a wage dispute.

AFL Motor Coach Employees, division 1063, last night at Washington, Pa., accepted the 11-cent offer of the Blue Ridge Transportation Co. The increase is retroactive to May 1.

French National Assembly Reds Leave In Body

PARIS, June 8.—(INS)—Communist members of the French national assembly walked out in a body today when a rightist deputy questioned their loyalty to France.

The rightist member of the French People's Rally also questioned the impartiality of special courts which are trying alleged collaborators. He asserted the courts dealt out communist justice.

A number of insults were exchanged by leftists and rightists. The communists returned to the chamber later, however, and the deputies peacefully resumed discussion of a bill to reduce the number of special courts.

Thugs Fail To Get Wallet With \$300

When several footpads, or in other words, hold-up men read this story, they'll probably bemoan their lack of thoroughness. To be brief, they attempted to hold-up two men in Butler avenue at 1:45 a. m. and over-looked \$300, which was in one of the "victim's" pockets, according to police.

They pounced upon Vaino Maata, 310 John street and Vaito Hytonen, 626 Forest street, at Butler avenue and John street.

The highwaymen pummeled the men to the ground. One reached into a pocket of Maata and drew out duplicates of two tickets with which he is bringing two relatives from Finland.

The highwaymen then fled. However, when the thugs reached into the pocket, his fitchy fingers failed to get a wallet which also was in the pocket and which contained \$300.

Checking around the city, Pa Newc finds that more Daily Vacation Bible Schools are in progress at the present time than have been operated for a number of years. The enrollment in most schools is lower due to the fact that boys and girls are able to attend the vacation school near their home. Most of the classes will be through by June 18.

The welcomed rain of the past few days has done wonders for local strawberries Pa Newc is told. Most of the berries in rural patches were drying up and now have been revived by the freshening rains. The rain has been a boon to other garden products also.

Lewis Accuses Van Horn. WASHINGTON, June 8.—John L. Lewis today accused Ezra Van Horn, operators' trustee, of "shameful misconduct" and "utter disregard" of his duties as a trustee of the \$39-million-dollar fund.

In an affidavit filed in federal district court, the United Mine Workers president asked dismissal of Van Horn's suit challenging the legality of a \$100-a-month pension plan for miners agreed to by Lewis and Sen. Bridges (R) N. H., neutral trustee.

Lewis contended that Van Horn's assent to the plan was unnecessary since the UMW welfare fund was set up as a charitable trust and could operate by a majority vote of the three trustees.

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. NO FILIBUSTER ON DRAFT BILL NOW EXPECTED

(Continued from Page One)

amendment expected to reach a roll call vote, was bitterly fought by southern Democrats before it was passed 37 to 35 in the closing hours of last night's session. It outlaws the poll tax as a voting qualification for members of the armed services.

Sen. Russell (D) Ga., who led the fight against the amendment, indicated he did not believe its adoption would result in a southern filibuster that might kill the draft. The action duplicated elimination of the poll tax for draftees during the war.

Free Soldiers From Tax. Russell explained that the southern bloc in the Senate sympathizes with the idea of freeing soldiers from the tax, but added that the Dixie senators oppose the underlying principle that the federal government has jurisdiction over poll taxes. He said: "We're going to get together and see what our position will be. I don't think the issue is important enough to try to beat it by prolonged debate. I don't think that will be done."

Russell agreed with other Senators that even if the southern bloc turns against the draft, it will pass the Senate.

Emperor Hirohito Given Pay Slash

TOKYO, June 8.—(INS)—Emperor Hirohito is going to take a pay cut.

It will be to the tune of 28 million yen. That became apparent today when the committee framing Japan's new budget in the Diet (parliament) allowed only 58 million yen for Hirohito's imperial household expenses in the coming fiscal year.

The current year's appropriation for the imperial setup was 86 million yen.

To receive, Mrs. Sowersby wore a floor-length gown of pastel blue crepe with an orchid corsage. Receiving with Mr. and Mrs. Sowersby were their daughter-in-law and daughter, Mrs. H. K. Raymenton of San Diego, Calif., who will be remembered here as Elizabeth Sowersby. For the occasion Mrs. Raymenton wore her wedding gown.

A profusion of flowers, mostly in tones of yellow and gold, reminded the guests of honor, decked the downstairs rooms.

In the morning Mr. and Mrs. Sowersby attended services at the Trinity Episcopal church followed by dinner at 1 o'clock at the New Castle Country club served to the family and Rev. Ralph E. Hovenkamp, rector of Trinity church, and Mrs. Hovenkamp.

Upon their return to the house, Mr. and Mrs. Sowersby renewed their wedding vows before the fireplace in the living room with Mrs. Sowersby carrying the prayer book that she carried at her wedding 50 years ago in Washington, D. C. Presiding at the tea table in the afternoon and pouring for guests were Mrs. E. J. Blanning, Mrs. Leslie Brindle, Mrs. S. DeGraf Pearson and Mrs. Don C. Lindley. Those who poured in the evening were Mrs. William B. Howe, Mrs. C. F. Sowersby of Chicago, Mrs. Ellis G. Diefenderfer and Mrs. Robert M. Garland.

Aides in the afternoon were Mrs. Ferd Miller, Mrs. Cliff Brydon, Miss Jayne Shilton and Mrs. Franklin Clary, and in the evening, Mrs. Winsor A. McNally, Mrs. Ray G. Caruthers and Mrs. James R. Green.

Honor Students Guests Of Rotary

Dr. Robert F. Galbreath Gives Graduates Splendid Talk On Future Responsibilities

LARGE NUMBER OF GROUP IS PRESENT

Members of the honor student group of Senior high school, who were graduated last week were guests of the New Castle Rotary club at their noon luncheon meeting in The Castleton Monday. There were 42 of the 67 members who graduated with honors in attendance.

In introducing the members of the class, Principal Clare B. Book, stated that this year's group of honor students was much above the average in many respects. Whereas the average honor roll contains only about 5 per cent of the enrollment, there were 12½ per cent in this year's class. Two of the members of the class have been accepted for admission to West Point, in the person of Lew Zeigler and Gene Gribble. There were four members of the football squad who were honor students, Mr. Book stated.

Dr. Galbreath Speaks
Dr. Robert F. Galbreath, pastor of the First Presbyterian church, addressed the group in behalf of Rotary, of which he is a member.

Dr. Galbreath commended the students on their fine scholastic attainments, stating that in achieving honor roll rating, they had overcome one great fault, which has been the curse of many promising young people, namely laziness. Most all failures in college, he stated, were due to the fact that the students would not work, and thus proved a disappointment to the school authorities and their families.

Good habits to acquire, and ones which will pay big dividends in life, were outlined by Dr. Galbreath as confidence in oneself, graciousness to others, and good moral character.

On Honor Roll

The students who made the honor roll in this year's graduating class were the following:

William Rumsch, Jr., Priscilla Barnes, Lois Ruth Baum, Dolores Jean Beatrice, James Abbott Berkstetter, Harriet Lenore Birk, Charlene Anne Boyle, Daniel Nick, Caciato Wilma Jean Cavill, Pauline G. encies" from time to time. Mr. Roosevelt managed to exact from Congress greater and greater executive powers, until the constitutional concept of independent functioning of the executive, legislative and judicial powers was completely abandoned. The Democratic Congress allowing the New Deal whole, became a mere appendage of the President. Not satisfied with taking over the legislative branch, Mr. Roosevelt set out to take over the judiciary. His Supreme Court packing scheme failed—largely through the resistance of a few Senators who were still orthodox Democrats; but time and nature eventually gave him eight out of nine members of the nation's highest court.

Completed Executive Control

The big emergency, World War II, completed executive control of the government and brought to a climax that concentration of power against which the real Democratic Party so long had fought, together with large inroads on state rights by various devices. About the only traditional Democratic policy recognized was manifested in the violent slashing of tariff schedules, by means of the so-called "reciprocal trade agreements," originated and sponsored by the free-trader Secretary of State, Cordell Hull.

The Wallace candidacy will only hasten the inevitable dissolution of the New Deal, which was the most contradictory conglomeration in modern American politics, comprising the conservative Democrats of the North, and the reactionaries of the South, the theoretical reformers, the radicals and the lunatic fringe, the big city bosses, Pendergast, Kelly, Flynn, Hague, et al. This strange mob was held together through the years by two things—the personal popularity and magnetism of Franklin D. Roosevelt and the hope of political jobs, contracts, subsidies and special favors. Throughout the Roosevelt regime it was controlled as to policies by the extreme left-wingers and in practices by the city machines.

Played Creditable Part

The real Democratic Party has played a large and creditable part in our history and given to the nation many of its great leaders. It fills a need in our political system—a two-party system with alert and responsible, faculty for criticism and opposition. Its degeneration into the New Deal has done more evil to constitutional government and American traditions than a generation can overcome. The sound and foresighted leaders of the Party, even at the price of possible temporary defeat, no doubt will welcome the elimination of the left-wingers and the return to the Jeffersonian ideals which made it a real force in the American government.

that to cut it even a little below the \$5,300,000,000 level would make recovery and rehabilitation impossible.

The moral of all this is obvious. It is of no avail to bring in an industrialist—even the ablest industrialist—if he is to be hamstrung by confusion, uncertainty, doubt, snarl of red tape and the

harassment of jealousy and suspicion.

There is another faction in the unwieldy board of directors that sits over Hoffman. The spokesman for this faction in the Senate is Senator Arthur H. Vandenberg. This faction must restore the cut in ERP funds and they must see to it that Hoffman gets at least a little of the independence that goes with running a successful industry.

Harold Brennan Speaks To Artists

Westminster College Art Professor
Comments Local Associated
Artists At Meeting

The regular monthly meeting of the Associated Artists of New Castle was held Friday night in their club rooms at 115 East Washington street.

Harold Brennan of the art department of Westminster college was guest speaker.

Professor Brennan spoke informally about art and the artist in America. He told the club that they were progressing, and warned them not to get too big; to be a working club and not a social club dabbling in culture.

Otto Pearsall, president, announced that Fred Alexander will conduct a class in "Preparations for Painting" the second Friday of every month beginning June 11 for those who want instruction. How to stretch a canvas and painting on a toned ground will be the subjects for the first meeting.

Plans for a club picnic to be held June 19 were discussed and a committee consisting of Mary Campbell, chairman, Elizabeth Solomon, Mary Ellen Sotus and Dr. Hugh Hart was appointed to make arrangements.

Attention was called to the achievement of the club members in the current spring salon art show at the Butler Art Institute in Youngstown. Works by William Berkstreser, June Chaffee, Rita Fletcher, Hugh Hart, William Trimble and Fred Alexander were accepted. The latter's "Druid Trio" won first prize in water colors and was later voted the most creative work in the entire exhibit by the Mahoning Society of Artists. The oils by Hugh Hart and Rita Fletcher were singled out by Clyde Singer, resident artist, for special mention. And William Trimble won second prize in ceramics.

A critical session was held at the conclusion of the meeting and oils by William Berkstreser, Hugh Hart and Fred Boley were submitted for criticism. Fred Alexander leading. Boley's work, a luminous street scene was later purchased by Dr. Hart for an undisclosed amount.

A lunch, prepared by Mary Campbell and Rita Fletcher rounded out the evening.

Another Mussolini Mistress Reported

MILAN, June 8.—(INS)—Another "Mussolini mistress" turned up as a sensation in the Italian press today.

His suit charged that Teresa was

fore her place was taken by the attractive Claretta Petacci.

The latter was shot with Mussolini by anti-Fascist Italian patriots while they were attempting to flee to Switzerland after his downfall.

Their bodies later were strung up by the feet at a gasoline filling station in Milan.

Make Attempt To End Wildcat Strike In Plant

Meetings Held In Effort To
Adjust Dispute In Radio-
to Co. Foundry Dept.

Characterized as a "wildcat" strike by both management and union, the work stoppage of the foundry of the National Radiator Company continued today.

A meeting was held today between John Groves, industrial relations manager of the company and John H. Grittle in an effort to get the men back to work. Mr. Grittle acted not as a union official but as a friend of the men on strike. "This is not an authorized strike," said Mr. Grittle. "It is a wildcat, but we are endeavoring to get the dispute adjudicated."

Company Statement

At noon today Mr. Groves made the following statement for the company.

"On Sunday night a foreman was appointed to handle a group of 31 men in the foundry."

"Eleven men said they would not work with the foreman and Fred A. Glenn, plant superintendent suggested they work at other jobs until the dispute could be ironed out. When the men refused to work at any job he told them they would have to leave the company property. The remaining twenty of the 31 stayed on the job."

"On Monday morning the entire foundry and core room remained away from work and are still off the job."

"Management reserves the right to appoint the foremen in the plant and it is doing so in this case."

"This is a wildcat strike and there is no dispute between the management and the CIO union with which we have a contract."

"The eleven men who refused duty under the foreman appointed by management have been discharged for disciplinary reasons."

"We are preparing to resume

work on Thursday morning in the foundry and trust the workers will be on the job."

Mr. Grittle said inasmuch as the strike is not authorized, there would be no authorized pickets at the plant.

Employees in department other than the foundry and core room are at work.

Await Report On West Pittsburg Water Company

Testimony in the proposed abandonment of the West Pittsburg Water company was concluded late Monday afternoon.

Following the testimony of the owners of the company, Barnett A. Marcus and Peter A. Paulson, and accountant Murray Thaw, Examiner Peacock heard testimony from the groups protesting the abandonment.

The Taylor township supervisors, Fred Schmidt, Carl Cochran and Louis Papas testified that the abandonment of the property would be a hardship upon the people and industries of West Pittsburg.

They said if the water company was abandoned it would force the people to dig wells and most of the homes are on a hill overlooking the Beaver river valley.

Examiner Peacock will report his findings to the Pennsylvania Public Utility Commission and a decision will come down later.

Howard J. Thompson of 502 Florence avenue, is confined to his home, and is quite ill.

Grand Jury Done With Cases Listed

Finishes Consideration Of 16
Cases Monday Afternoon;
Lloyd Hamill, Fore-
man

OTHER EVENTS IN COURT HOUSE

With only sixteen bills of indict-
ment to consider the grand jury
finished that portion of its work
Monday afternoon. Judge John G.
Lamoree organized the grand jury,
appointed Lloyd Hamill of Perry
township as foreman and then in-
structed the members.

A trip over the court house prop-
erty followed with recommenda-
tions to come later.

SENTENCE NUMBERS WRITER

Andy Marmo, who pleaded guilty
to writing numbers before
Judge John G. Lamoree was fined
\$400 and costs for the offense.

OPINION FILED

In an opinion filed by Judge
Lamoree, the motion of the Quality
Furniture Company for judgment
in a suit brought by Marcella
Drake is refused. The plaintiff
brought suit to recover \$50 paid
on a kitchen set but when a chair
of the set was delivered she re-
fused to accept it and asked for
her money back.

The defendants alleged she had
shown no contract requiring the
return of the money and that they
were under no compulsion to re-
turn it nor was there any agree-
ment permitting the return of the
furniture.

West Point Class Of 301 Graduates As 'Shavetails'

WEST POINT, June 8.—(INS)—
Gold bars glittered today on the
collars of 301 new "shavetails"—
commissioned as second lieuten-
ants in the army by Secretary of
Defense Forrestal.

But unlike wartime and pre-
World War II years the newly
graduated officers this year have
scores of combat veterans in their
ranks.

Many Are Veterans
Many of them fought as GI's in
the Pacific jungles and on the
European battlefields. And many
are older and far more matured
than West Point graduates have
been in the past.

All the new lieutenants were
awarded bachelor of science de-
grees. But physical disabilities pre-
vented two graduates from being
commissioned in the regular army.

The 1948 class represents 44
states, Hawaii and the District of
Columbia.

Wooden Nickels To Be Circulated

Sequoi General Committee Putting
Out An Issue Of Wooden
Nickels

That old adage about not "taking
any wooden nickels" won't hold in
New Castle until after the sequoi-
centennial celebration is over July
10.

The general committee in charge
of the celebration is putting out
an issue of wooden nickels, that is,
souvenir pieces printed on plywood
2½x4 inches.

These wooden nickels are as
good as currency for in the First
National Bank of Lawrence County
there will be deposited dollar
for dollar, for all wooden nickels
printed.

The novelty has proved an out-
standing attraction at many other
centennial celebrations. Merchants
buy a supply of them and give
them out in change.

Persons having them can buy
anything from a popsicle to a por-
terhouse steak with them for they
are backed with cash money.

If a merchant should get over-
loaded with them by sales, he can
redeem them in a few minutes at
the bank. Or any individual who
wants money instead of the wood-
en nickels can redeem his.

They have proved to be an in-
teresting souvenir of other centen-
nials and hundreds of dollars
worth of them are kept by souve-
nir hunters. Naturally all wooden
nickels not redeemed represent
profit for the sequoi general com-
mittee.

Georgiadis, a New Castle woman
who has been a member of the
Pittsburgh chapter, headed the or-
ganization of the New Castle chap-
ter.

NEW WILMINGTON, June 8.—Samuel A. Fulton, West Allis, Wis., businessman and second lay moderator of the United Presbyterian General Assembly, will give the opening address at the convention which will open its program on Wednesday evening, June 9, at Westminster college, New Wilmington.

Nominees For Moderator
An election for a moderator to succeed Mr. Fulton will be held at the Wednesday evening session. Among those mentioned for the position are Rev. A. H. Baldinger, retired professor of homiletics and practical theology at Pittsburgh-Kenia Seminary and temporary pastor of the Millwood United Presbyterian church, Pittsburgh; Rev. Dr. Charles L. Hussey, pastor of the First United Presbyterian church, Philadelphia, and secretary of the Board of Pensions and Ministerial Relief, and Rev. Dr. J. K. Approximately 200 commissioners, equally divided between clergymen and laymen, will attend this convention.

A revised basis of union with the Reformed Church will be submitted to the Assembly with the recommendation that it be sent to the various presbyteries for discussion.

The proposed merger would result in the United Presbyterian Reformed Church, with a membership of approximately 300,000.

Rev. Dr. O. H. Milligan, pastor for 39 years of the Avalon United Presbyterian church, will serve his 18th consecutive year as principal clerk of the assembly.

Dr. Milligan reports total membership of the denomination as of March 31 was 205,677, a net gain of 3072 in the past year.

A Weak, Run-Down Feeling Is Often A Warning

That The Red-Blood
Is Getting Low

If you do not feel like your real self, do not have the urge to be up and doing, why not check-up on your blood strength? Look at the palms of your hands, your fingernails, your lips, the lobes of your ears—are they pale and off color?

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that 885 Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the 885 Tonic formula, which contains special and potent activating ingredients.

Also, 885 Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on 885 Tonic now. As vigorous blood surges throughout your whole body, the 885 Tonic gives you strength should make you eat better, sleep better, feel better, work better, play better, color a beautiful rose in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. 885 Tonic helps build sturdy health.

Good Taste

By FRANCINE MARKEL

WIFE VISITING HUSBAND'S OFFICE

"I have just married and the wife of my husband's partner told me today that she has never visited their office; that men don't like their wives to haunt their offices; also that it is bad taste for a wife to make such visits. What is your opinion?"

Answer: Busy men resent such visits, in their hearts, even though they may not betray their feelings. It is not only wife visits that they resent. The same would be true of parents, sisters, brothers or any other relatives who drop in for purely social calls. Such visits are likely to suspend the entire office routine.

Really important executives are occupied every moment spent at their desks and even people having business relations with them have to make previous engagements through secretaries and retainers before gaining entrance to their inner sanctums. The visitors' schedule is an endless chain and for everyone—even the most adored of wives, fiancées or daughters—to break through it results in nervousness and strain. And even if a striving husband has not yet arrived at the point where he can afford such protection from an office staff, his wife should have all the more respect for the value of his time.

Of course, all such problems depend on circumstances. Some playboys ornament desks simply because they are sons of the president or some other tycoon. Wives can walk in on them at almost any time without clogging the works. And in any case of emergency when a wife really needs to call on her husband at his office, there is no rule of etiquette, personal or official, that should make her hesitate.

Question: My mother is a widow and would like to know the proper way to word my wedding invitations. Should she use, for example: "Mrs. John Smith requests the honor" or "Mrs. Mary Smith"?

Answer: A widow always retains her deceased husband's name until her own death or remarriage. Your mother should, therefore, say "Mrs. John Smith requests the honor of your presence."

Question: My mother-in-law lost her wedding ring. For some time she has been talking about replacing it but never has done so. Her birthday is coming soon. Do you think it would be proper for my husband and me to buy her one as a gift?

Answer: Not only would it be entirely proper, it would be a lovely gesture... one that she will appreciate greatly no doubt.

CONTROLLING BAD TEMPER
"I am rather quick tempered and at times 'fly off the handle' and say things for which I am frequently sorry afterward. Can you suggest any way of overcoming this unfortunate habit?"

Answer: Quick tempers can be controlled, but their cure requires an abundance of will power and determination. It is worth the tremendous effort for you cannot achieve popularity while handicapped by a bad disposition.

When you are prone to be critical of others, "sit tight" for a few minutes until you get control of yourself. On such occasions, our first thoughts are destructive and should remain unsaid. Too many of us think that we are right and our opponents wrong. Too often we indiscriminately criticize others without giving them an opportunity to express their views. And too often some people rush to the telephone to report the children next door or the impudence of the elevator boy or the inefficiency of a shop girl.

Make it a rule to sleep upon such offenses before reporting them. The things we do in the heat of indignation or temper are the ones we later regret or that return to haunt us.

Question: I shall marry informally at a church wedding having but two attendants—maid-of-honor and best man. I shall wear traveling clothes. As my father is dead, I should like to know whether it is essential for me to have my older brother give me away.

Answer: It is really not essential that you have anyone walk up the aisle with you, but it is a comfort for the bride to have someone to "lean on" at that time. Then too, some ceremonies require the bride to be given away when the clergyman asks: "Who gives this woman in marriage?" However, the person assuming this responsibility, may reply from his pew although he usually escorts the bride up the aisle. In other words, it is entirely up to you.

TOBACCO TAX
WASHINGTON, D. C.—(INS)—Tobacco smokers in the U. S. burn up almost one billion cigarettes every day, the Federation of Tax Administrators reports. This statistic came to light in connection with the federation's recent statement that cigarette and tobacco taxes levied by 38 states yielded a record of 293.2 million dollars in calendar 1947. This beat the 1946 total by 25 per cent. The 1948 tax gross is expected to be even bigger. The largest tonnage item in steelmaking is air.

Vacation Touring Is Getting Good Start

School is out, days are getting warm and balmy, and before they get too balmy, a lot of folks are going to make sure they are away from these parts.

According to B. N. Hanlon, manager of the New Castle AAA, people started traveling as early as the third week in May, and will keep it up until the middle of September.

All kinds of travel are heavy this year, especially car travel, for a lot of family trips are being planned.

Trip To Rome
The longest trip planned thus far this summer is a journey to Rome and a return to the U. S. Several trips have been planned to the west coast, and various points in the south.

Travel by rail, airplane, bus are all popular modes of travel, and travel is much heavier than it was last year.

Increased Membership
Membership of the New Castle AAA last year was 400. It is now more than four times greater, having a membership of 1800 persons. Much of the work of the AAA is to plan trips, make connections for train and air travelers, and to keep posted as to the condition of roads and hotels.

Staff Of 150 4-H Leaders Prepares To Attend Training Camp

The purpose of this camp is to acquaint 4-H leaders with camp activities and camp rites. These leaders will serve as camp counselors for the 4-H youngsters when they go to camp June 20 to June 23.

Going From County
Two leaders from each county are eligible to attend this camp, in addition to the extension representative. Attending from Lawrence county will be Miss Emmeline Mehlman, county extension worker; Mrs. Paul Adams, R. D. 4, New Castle, leader of the Slippery Rock township club, and Miss Marjorie McAnis, R. D. 1, New Galilee, leader of the Big Beaver Room Improvement club.

Camp Kanestake is equipped to take care of 160 persons, and approximately 150 4-H leaders are expected to attend camp next week.

Scratchy School Blackboards Out

CINCINNATI, O., June 8.—There will be no nerve shattering screech of chalk or finger nails against a blackboard in the new public schools of Cincinnati.

Joseph Beckman, head of the school building program, told the board of education that the new blackboards are made of rough plate glass, and will not permit chalk or finger nails to slide over them.

These new blackboards are a deep green color which makes them glareproof and easy on the pupils' eyes.

REGISTER NOW FOR YMCA CAMP

Young members of the Y. M. C. A. today were reminded by boys' work secretary David Gattall to register immediately for the summer camping season if they have not done so.

The reservations for the season are rapidly filling and to insure a place the boys are asked to leave their name at the desk as soon as possible.

GOOD DAIRY BREEDING ALONE IS NOT ENOUGH

Differences in two well-known herds, which except for these two important factors would be identical, emphasize the need for proper feeding and good management.

The two herds have been in the same bull association for twenty-five years. They have used the same sires, and the breeding programs have been very similar. But in one herd the cows average 459 pounds of fat, while the other has been doing only 358.

Each herd has several daughters from one particular bull. Those in the good herd have been producing 470 pounds of fat, those in the others only 285.

Since the breeding of the animals in the two herds was much alike, the difference in production must be attributed to different feeding and management practices.

Good breeding is not enough. Unless improvement in feeding and management keeps pace with superior breeding members of bull associations or artificial breeding co-operatives will not get full benefit from their breeding program.

STRESS SAFETY IN HAYING SEASON

The approach of the haying season on Lawrence County farms ushers in that period of the year when accidents to farm people occur most frequently.

Record show that the peak of such accidents is reached during the harvest season, it behooves farm people to take extra precautions to insure safety at this time of the year. Haying machinery specially is important because it is usually operated with high speed gears and cutting mechanism.

To reduce hazards and thus avoid disastrous losses the following suggestions are given:

1. Check carefully all equipment for defective hitches, ropes, pulleys, lofts, hay racks, or ladders. Loft floors should be put in good repair and hay chutes guarded.

2. Make starts and stops gradually in all haying operations and watch out for falls from hay racks, hay stacks, and hay mows.

3. Machinery should be stopped and thrown out of gear before oiling, adjusting, or unclogging, and safety guards should be kept in place at all times.

4. Pitchforks are dangerous, always place them where they are in plain sight of all workers. Never throw a pitchfork.

5. Do not wear loose or ragged clothing which may catch easily in moving machinery.

6. Damp hay is one of the principal causes of barn fires. Therefore, be sure that the hay is well cured. Check regularly for several weeks for all signs of heating.

BIG FEET—BIG WOMEN
LONDON—(INS)—Modern British women are getting bigger and heavier despite austerity rations. Mrs. Wyndam Bolton, principal of the Mayfair Mannequin Academy in London, says there is no doubt about it. She admits that the girls she trains now are heavier than those of the 1920's. She said: "They certainly have bigger feet—a sure sign that they are heavier."

State Welfare Workers Gather Here On June 15

District Conference To Be Held In Castleton; Includes Six Counties

Mrs. Blake H. Waldo, chairman of Region 2, states arrangements have been completed for the Pennsylvania Welfare Conference of this district to be held in The Castleton Hotel June 15.

The conference will operate on D.S.T. and registration will start at 9 a. m. Luncheon will be served in the ballroom of the hotel. Counties included in Region 2 are Jefferson, Clarion, Butler, Lawrence, Indiana, and Armstrong.

The Pennsylvania Welfare Conference is a state wide organization of citizens and social workers whose purpose is the advancement of the social welfare of all Pennsylvania. It operates by arranging and holding educational meetings, and the public is invited. The conference has no platform. The conference is the only forum organization through which people all over the state can ask questions and exchange specific program suggestions about health, recreation and welfare services. Its meetings are planned to inform the public about what is being done and what still needs to be done. If you are a board member you have a chance to keep in touch with policies and methods developed by agencies in other communities. If you are a health, recreation or social worker you will find stimulation in sessions and articles which discuss techniques, new programs, or attempts at solving old problems.

To Spend Huge Sum

We, the people of Pennsylvania, will spend over 100 million dollars for welfare in the state this year. Most of it will come from taxes; the rest from contributions to private organizations. It is a great deal of money and we have a stake in the services it provides. They exist for us. We pay for them. How much do we know about them. How can we find out? The Pennsylvania Welfare Conference can help us.

Mrs. Louise McConnell, executive secretary of the American Red Cross, will act as general chairman. Austin A. Webb, program chairman; publicity, Mrs. Blake H. Waldo; local arrangements, Mrs. Lyle Hughes; membership, Mrs. Josephine L. Martz, Brookville, Pa.

The program committee feels it has been very fortunate in securing such outstanding speakers as Miss Natalie Dunbar, director of case work, Children's Service Bureau, Pittsburgh; Miss Gladys W. Shuford, district secretary, Family Service Association of Allegheny county; Dr. Dora F. Capwell, director, Allegheny Vocational Center, Pittsburgh.

CHILDREN AND DENTISTS

Some dentists get along well with children. They make friends with them right away.

Some children are rather difficult for a dentist.

Sometimes mother and dad can help a lot. They might examine Rosie's teeth every day and tell her that the dentist could do better than they can.

The first visit to the dentist is the important one. If everything goes well at the first visit there is usually clear sailing later on.

Gentleness and kindness help a lot. Dentists usually are blessed with both. They should be anyhow.

William H. Miller, Butler Leader, Collapses And Dies On Way To Office

BUTLER, June 8.—William H. Miller, prominent business, civic and fraternal leader, collapsed and died on North Main street Monday while on his way to his office in the Butler County National Bank building.

Born in Somerset county, Miller had resided in Butler the greater part of his life. For more than fifty years he had operated a real estate and insurance business.

Miller was elected to city council after filling out an unexpired term, and was later appointed city assessor.

Other Matters Also Before
Session At City Hall On
Monday

TWO COUNCILMEN ARE OUT OF CITY

Council met Monday in city hall, and reported favorably from committee ordinances which provide for the resurfacing by the State Highway department of North Jefferson street, between Grant street and Wallace avenue, of a sanitary sewer in Carlisle and the construction by the city street between Meyer and Northview avenues. The cost of the latter will be assessed against abutting properties.

Council also authorized the payment of \$55.12 to William Gilboy, 316 North Beaver street. A sewer was damaged by the WPA which resulted in it clogging. The cost of repairing it was \$55.12, and the council felt it was obliged to refund the amount to Mr. Gilboy.

Council received from the state treasurer a check for \$7,748.88, as the city's second installment as its share of the gasoline tax refund. The treasurer was instructed to receive the check and earmark it for the improvement of local highways, as called for by state law.

Councilman James Gibson submitted a bill which provides for the grading of Carson street between Smithfield and James street. The bill was referred to committee for consideration.

Craft Motor company asks permission of council today to grade and then use a lot at the north-west corner of North Beaver and West Grant streets for parking by employees and customers. The communication was referred to the city engineer. Persons who objected some time ago to the company using the lot for storage persons will be notified of the communication.

Councilman Albert A. Hoyland was absent, being on a visit to his son, Wilfred, at Norfolk, Va. Councilman Richard Davis was also absent Monday, being in attendance at the Lion's convention at Reading.

Highway Surface Treatment Work Well Under Way

Heavy Shovels Working On King's Chapel Project; Expect Completion This Year

Excellent progress is being made by the Lawrence County Department of Highways maintenance crews in the surface treatment work that is going on in various sections of the county. The secondary or blacktop roads of the local highway system are receiving their annual conditioning which they receive every spring by the workmen, it is reported by Alfred Martin, county superintendent.

Work was started the first part of June on the Harlansburg road section and upon completion of the work in that area, the equipment was moved to another part of the county. Monday the crews were engaged in North Beaver township, starting at Derringer's blacksmith shop near Mt. Jackson and will proceed to Petersburg, Ohio.

Work is scheduled to begin in the Pleasant Hill Grange section in the vicinity of Ellwood City upon the completion of the North Beaver township work.

Huge shovels are in operation in the King's Chapel road area in a continuation of a much needed road improvement job that was begun on that road last summer. Several miles of the road were completed last year and were thrown open to traffic before winter set in. Mr. Martin reports that his men aim to complete the project before this coming winter. Some relocation, widening and straightening is involved on the project which is being done entirely with the funds of the local department allocated for that purpose by the state.

Declares GOP Will Gain Strength In Congress In Fall

HARRISBURG, June 8.—(INS)—National Republican chairman B. Carroll Reece predicted today the GOP will gain congressional strength as well as elect a president this year.

President Truman will not carry more than four states outside the south, Reece claimed, and probably will forfeit the border states of Missouri, Kentucky, Tennessee and Virginia.

He forecast a generous increase in house membership and said "two or three" more senate seats would be picked up in Montana, Colorado, New Mexico and Rhode Island.

His predictions were made during a press conference following a meeting with Gov. James H. Duff and leaders of the GOP state committee's allied division.

Vacation Reading Club Organized

Junior Department Of Library Club Started To Create Summer Reading Interest

The juvenile department of the New Castle Free Public Library has organized a vacation reading club to stimulate reading for boys and girls who have library cards, and who have started their summer vacation. Already 148 have enrolled.

Mrs. Walter McKee, junior librarian, announced that each juvenile is required to read ten books before they will receive the vacation reading club button. The names of the books which they read, will be recorded in an individual folder and kept on file all through the summer. Upon reading the ten books and receiving the button, the juvenile will then be a full-fledged member of the club, but he and she is urged to continue reading and not stop reading at that time. The idea of course is to keep an interest in reading during the summer months.

Thus far, one reader has reached the quota of ten books and has received a button: Florence Rickel, of the fourth grade, in North street school.

So, come on boys and girls, read and get your summer vacation reading button.

Robert Herick, 16th and 17th century English poet was born in London in 1591. His poems include epigrams, religious poems, and about 1,000 secular poems, chiefly love or descriptive verses. Herick died in 1634.

Student Drivers Not Discouraged By Sudden Deluge

Dark clouds and a deluge of rain didn't seem to dampen the enthusiasm of prospective drivers because every one of them showed up for their "lesson" at the appointed hour on Monday.

Two students are taken out in a car, for an hour's instruction, and receive lessons three days a week on alternate days.

Classes are held from 8 a. m. to 8 p. m., with two cars operated in the morning, one in the afternoon and two in the evening. The evening seems to be the most popular time for taking a lesson, stated B. N. Hanton, manager of the New Castle A.A.A., which sponsors driving school.

The average age of student drivers is between 30 and 35 years, and most of the students are women. Only two boys have registered for the course.

Russo, and the latter's father, John Christopher, of 521 West Cherry street.

Recently when Fred sought for his birth certificate to secure a railroad pension, he found his uncle's name on it, as godfather. Then he recalled his uncle had a movie show in this city, came here, found his name in the directory, and connected it with the Russos at West Cherry street.

He called the home, and all were invited down, and soon established their identity and relationship. Mr. Christopher is invalided at his home.

Receive Bid 0

\$3,000 On Earley Homestead Today

If the sale is approved by court, the old Earley homestead on Kurtz Place will be sold for \$3,000.

Acting for his son, a contractor James Cioffi today bid \$3,000 for the house and grounds—about 2 acres—and if the sale is approved the old home will probably be razed.

The county commissioners to be agreed to the sale and accepted down payment. However, the action must be ratified by the court before the sale is consummated.

The commissioners had asked for bids on the razing of the property expecting that offers of some kind would be made for the material in the building and the commissioners would retain the ground.

The bidders presented bids in which they asked that they be razed for the home, they to take the materials. The commissioner thought the Cioffi bid of out of sale was the best of the lot.

Around Hollywood

By RUTH BRIGHAM
(International News Service Staff Correspondent)

HOLLYWOOD, June 8.—(INS)—Movie Producer Harry "Pop" Sherman is top ranker with the parent-teachers of the nation. His 400 fan letters a month prove it. Sherman's westerns are so wholesome that the Johnston office doesn't even have to review his film. They know it's clean.

Has Made Fortune
The veteran producer has made a fortune on his releases, proving that the public will pay for decent entertainment.

The white-haired producer summed up his 36 years in the industry today with this remark: "Give them wholesome, exciting pictures and you'll make money. Give them nothing but glamour and Gables and Turners—and 8,000 theaters in the country would

close their doors. At least that many depend on westerns."

Sherman's nickname, "Pop", is a term of endearment from his crew. And they don't mind admitting, to a man, that they love "Pop".

He's one of the boys when on location. Works harder than anybody, eats the same grub the "hands" do, and is the last one to curl up in his bedroll at night.

The movie creator of "Hopalong Cassidy" said his fan mail reached a new high when he closed the series with the 56th film.

Has New Version
His latest release is "Four Faces West" starring Joel McCrea and Frances Dee.

It's not a shoot 'em up. In fact, there's not one shot fired—but "Four Faces West" is as truly western as Sherman's first produc-

tion, Zane Grey's "Light of the Western Stars".

Sherman's movies are authentic, even down to cowboys wearing patched pants and old boots. He's stuck to the picturesque old west. No fancy pants boys for him.

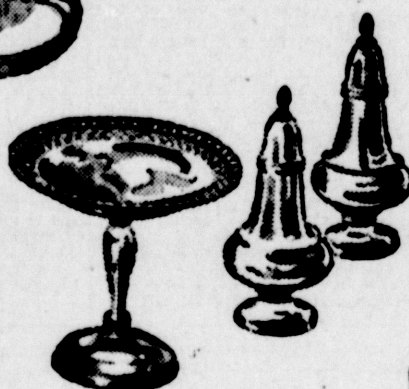

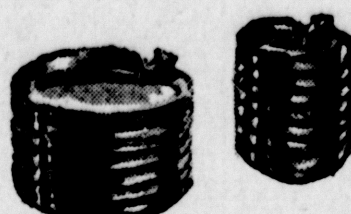

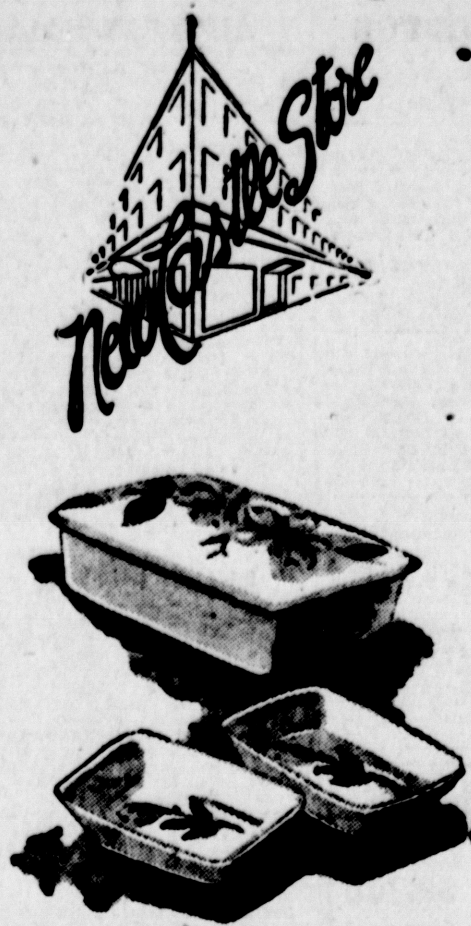

Sees No Change
He said that ranch life hasn't changed and won't—not as long as the cowboys have to ride horses and rope cattle. No machinery has replaced the rope yet.

Sherman pointed to his top star—Joel McCrea—as an example that westerns pay. McCrea makes \$10,000 per week—and let who will get the Oscars!

McCrea, according to "Pop", is "the finest horseman in America. The greatest roper I've ever seen—and I've seen most of 'em."

The trouble with westerns, says Pop, is that the people who make 'em don't really know the west.

The world's first railway timetable, measuring three by four inches, was used in England in 1839, developed with the railway industry and copied all over the world.
